## About Me

My name is Alireza Nasri, and I have over three years of experience in web development and distributed systems. Throughout my career, I have developed a diverse range of technical skills, including Django,FastAPI, and other related technologies. I have contributed to various projects, resulting in the development of products such as Hface, Hdetect, and Hplate, which are products of Hoopad Company. My goal in joining your team is to leverage my experience and technical skills to contribute to the company's growth and success, while also learning from my colleagues and gaining new experiences to further develop my professional skills. Finally, I would describe myself as a passionate individual who is always eager to learn ,take on new challenges, and continuously improve.
